# Wreath Making of the Month Club

## – Southern Charm Wreaths –

The inspiration for this bike wheel wreath was the wheel!! Bike wheels are very popular on Pinterest and everyone wants one! When I started making bike wheel wreaths for my Etsy shop, they sold fast and I knew our wreath club members would also love the opportunity to make one for themselves.

This kit is patriotic, which is perfect timing for what our country is now enduring, but keep in mind that this design could be on a grapevine wreath if you don't favor the bike wheel or use these instructions for making a different themed bike wheel for any holiday or season. Trendy Tree stocks various colors of the bike wheel.

Thanks to Trendy Tree for providing our members with a kit at a discounted rate! If you choose to purchase the kit from Trendy Tree, use customer code america and receive a discount while supplies last.

The customer code is entered on the HOME page at the very bottom or by [clicking this page](#). Then enter the code **america**. (*Note this is not a discount code to be used during checkout but before checkout in the customer code field.*) Make sure you are logged out of your account at [Trendy Tree](#) for the code to work. When the kit runs out, you can purchase items separately or you can purchase substitutes from your local craft stores.

Please note, you're in the wreath club to learn techniques and tips. As you will see in the video training, I give you information in order to help you make substitutions with flowers you find locally or in other online boutiques.

## Video(s)

First, you can find the featured training tutorial for this month's project by using the password protected link below.
